Bills introduced in the Bengal Legislative Assembly; Reports of Select Committees presented or to be presented to that Assembly; and Bills published before introduction in that Assembly.

BENGAL LEGISLATIVE ASSEMBLY DEPARTMENT.

NOTIFICATION.

No. 54081.L.A.—10th December, 1940.—The following report of the Select Committee on the Bengal Touts Bill, 1937, with the Bill embodying amendments recommended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Touts Bill, 1937.

We, the members of the Select Committee of the Bengal Legislative Assembly to which the Bengal Touts Bill, 1937, was referred by a motion carried in the Bengal Legislative Assembly on the 29th August, 1940, have the honour to submit this our final report on the Bill embodying amendments recommended by us annexed. All matter recommended to be omitted by the Select Committee has been printed in *italics* and enclosed in square brackets and all new matter recommended to be inserted has been underlined.

2. The Bill was published in English in the *Calcutta Gazette* of the 2nd December, 1937, before introduction.

3. We do not consider that the Bill has been so altered by our recommendations as to require republication.

4. The committee met for the first time on the 19th October, 1940, at Darjeeling and concluded their sittings there on the 23rd October, 1940.

5. The changes made in the Bill, apart from purely formal alteration, are as follows:—

Clause 6.—We have provided for approval of the rules, to be framed under this section, by the Provincial Government to bring it in line with section 224 of the Government of India Act, 1935. The wording of section 69(2) of the Indian Registration Act, 1908 (also reproduced in clause 9 of this Bill) has been followed.

Clause 7.—The proviso to the proposed sub-section (7) of section 36 has been expanded to exclude all persons whose attendance may be required by any process of court for any purpose whatsoever.

Clause 9.—The new sub-section (3) to section 80A has been added to provide for any possible grievance against the decision of the Subdivisional Magistrate. We have, however, considered it sufficient to make the decision of the Registrar final in all such cases.

The proviso to section 80E has been amended consistently with the amendment in clause 7.

Clause 13.—The amendment in (b) of the proposed sub-section (9a) of section 4 of the Bengal Village Self-Government Act, 1919, is intended to make it consistent with the provision in section 97 of that Act.

Clause 15.—Sub-section (3) of section 98A has been inserted and the proviso to the proposed section 98D amended consistently with the amendments to clauses 7 and 9.

Clause 17.—The slight alterations here are intended for conformity with the provision in section 46 of the main Act.

Clause 19.—In sub-section (3) of section 46A we have made provision for appeal against the decision of the Subdivisional Magistrate as in other similar cases.

The proviso to section 46D has also been amended consistently with other previous amendments.

Throughout this clause we have preferred to give the powers to the Board instead of to its Chairman as in the case of the Courts and Benches under the Bengal Village Self-Government Act, 1919, as set out in clause 15 of the Bill.

STATEMENT OF OBJECTS AND REASONS.

The purpose of the Bill is to remove certain difficulties which have been experienced by the authorities concerned with the administration of Cantonments under the Cantonments Act, 1924 (II of 1924), since the passing of the Cantonments (Amendment) Act, 1936 (XXIV of 1936). The object of each of the proposed amendments is explained in the notes which follow.

NEW DELHI;

NOTES ON CLAUSES.

Clause 2—Section 27 (2) (1).—In the majority of municipalities subjects of States in India are eligible to vote at municipal elections. It is desired to amend this section to enable persons who are subjects of States in India to be enrolled as electors provided they are otherwise qualified.

Clause 3—Section 32.—This section prohibits a member of the Board from voting at a meeting of the Board on a matter relating to himself or affecting his own interests, but there is no corresponding prohibition with reference to meetings of a committee of the Board and it is proposed to extend the scope of the prohibition to meetings of committees of Boards.

Clause 4—Section 34.—This section admits of the removal from the Board of a member who, subsequent to election or nomination, becomes subject to a disqualification applicable to election and nomination alike, but fails to provide for the removal of an elected member who accepts service under the Crown and then becomes subject to a disqualification for election. It is proposed to insert provision to admit of removal in this class of case and also to take the opportunity of dealing with a frequent source of embarrassment by providing power to remove a nominated official member who has ceased to serve in the cantonment and has left without tendering his resignation for an inaccessible destination.

Clause 6—Section 186.—The object is to bring the wording of clause (b) of this section into line with that of clause (d) with a view to removing the doubt arising as to the adequacy of the language used in clause (b) to cover a prescription applicable to the cantonment as a whole.

Clause 7—Section 188.—This section empowers the Board to require the removal of unauthorised buildings over drains, etc. The object is to remove an undesirable limitation on the scope of this power by substituting the word "structure" for the word "building".

Clause 8—Schedule V.—Section 274 confers a right of appeal on any person aggrieved by an order described in Schedule V. One of the orders specified in Schedule V is "Board's notice to provide sufficient drainage, etc.", under section 137. This is an incorrect description of the notice issuable under section 137, which in fact provides for the issue of notices relating to the construction, etc., of private latrines. No appeal lies from orders of this nature under the majority of Municipal Acts and, in lieu of correcting the misdescription in the relevant entry in Schedule V, it is proposed to omit the entry altogether.

- (b) shall exclude any further application under this sub-section."

- (c) after sub-section (3) the following sub-section shall be added, namely:—

"(4) An application to the Central Board of Revenue under this section shall be presented to the Excess Profits Tax Officer before the expiry of the period specified in the notice issued under sub-section (1) of section 13, but in the case of an application under sub-section (1) of this section, if the person carrying on the business has made or is making an application under sub-section (3) of section 6, the application shall be presented to the Excess Profits Tax Officer before the expiry of one month from the date on which the order of the Board of Referees disposing of the application under sub-section (3) of section 6 is communicated to the person who has made that application."

Amendment of
Schedule I, Act
XV of 1940.

9. In Schedule I to the said Act,—

- (a) in rule 1, in the first proviso, after the word "Provided" the word "further" shall be inserted, and before that proviso, as so amended, the following proviso shall be inserted, namely:—

"Provided that any sums excluded under the proviso to clause (iii) of sub-section (2) or clause (a) of sub-section (4) of that section from the allowances made in computing the profits of the business for the purposes of income-tax shall, if paid, be included in those allowances when computing the profits of the business for the purposes of excess profits tax:"

(b) in rule 4, after sub-rule (2) the following sub-rule shall be inserted, namely:—

“(2A) In the case of a business part of which consists in banking, insurance or dealing in investments, not being a business to which sub-rule (2) of this rule applies, the profits shall include all income received from investments held for the purposes of that part of the business, being income to which the persons carrying on the business are beneficially entitled.”;

(c) in rule 7,—

(i) for sub-rule (1) the following sub-rule shall be substituted, namely:—

“(1) In the case of a business carried on, in any accounting period which constitutes or includes a chargeable accounting period, by a company the directors whereof have throughout that accounting period a controlling interest therein—

(a) in computing the profits for that accounting period; and

(b) if the standard profits of the business are computed by reference to the profits of a standard period, also in computing, in relation to any such chargeable accounting period, the profits for the standard period,

no deduction shall be made in respect of directors' remuneration.”;

(ii) in sub-rule (2), for the words “In this rule” the words, brackets and figure “In sub-rule (1) of this rule” shall be substituted;

(iii) after sub-rule (2) the following sub-rule shall be added, namely:—

“(3) If, in the case of a business carried on by a company in any accounting period which constitutes or includes a chargeable accounting period, the directors of the company—

(a) have during any part of that accounting period, or

(b) had during the whole or any part of any previous accounting period which includes the whole or any part of any chargeable accounting period or the whole or any part of the standard period (if any),

a controlling interest therein, and the case is not one to which sub-rule (1) of this rule applies, then, except in so far as the Central Board of Revenue otherwise directs, no deduction shall be made in respect of directors' remuneration either in computing the profits for the first-mentioned accounting period or in computing in relation to any chargeable accounting period wholly or partly included in that accounting period, the profits of the standard period (if any).”;

(d) after rule 10, the following rule shall be added, namely:—

“11. Where in respect of any accounting period a deduction would, apart from the provisions of this rule, be allowable in computing profits, and, in the opinion of the Excess Profits Tax Officer, the deduction does not represent a sum reasonably and properly attributable to that accounting period, only

such part of the deduction shall be allowable as a deduction for that period as appears to the Excess Profits Tax Officer to be reasonably and properly attributable to that period, and any balance of the deduction shall be treated as attributable to such other accounting period or periods (whether or not they include, or fall wholly or partly within, the standard period, if any, or any chargeable accounting period) as the Excess Profits Tax Officer thinks proper.

Any person who is dissatisfied with a determination of the Excess Profits Tax Officer under this rule may, at any time before the expiry of one month from the date on which such determination is communicated to him, appeal to the Board of Referees through the Excess Profits Tax Officer."

Amendment of
Schedule II,
Act XV of 1940.

10. In Schedule II to the said Act,—

(a) in sub-rule (2) of rule 1, after the words "written down value" the following words shall be inserted, namely:—

"and to such other deductions in respect of reduced values of assets as are allowable in computing profits for the purposes of income-tax";

(b) at the end of sub-rule (1) of rule 2 the following shall be inserted, namely:—

"The debts to be deducted under this sub-rule shall include any such sums in respect of accruing liabilities as are allowable as a deduction in computing profits for the purposes of excess profits tax or would have been so allowable if the period for which the amount of capital is being computed had been a chargeable accounting period; and the said sums shall be deducted notwithstanding that they have not become payable.";

(c) after rule 6 the following rule shall be added, namely:—

"7. (1) If—

(a) the Central Board of Revenue is satisfied, as respects any assets of any business the standard profits of which are computed by reference to the profits of a standard period, that during that period or any part thereof those assets were inherently unproductive, and

(b) an application that this rule shall have effect is made through the Excess Profits Tax Officer to the Central Board of Revenue by the person carrying on the business,

then, in computing the average amount of the capital employed in the business in the standard period and in all chargeable accounting periods, those assets, and any other assets of the business, shall be treated as not having been assets thereof during any part of the period during which, in the opinion of the Central Board of Revenue, they were inherently unproductive;

Provided that in the case of a business the standard profits of which depend directly or indirectly upon a direction of the Board of Referees under sub-section (3) of section 6, or of the Central Board of Revenue under

sub-section (1) of section 26 of this Act the provisions of this rule shall have effect to such extent only as the Central Board of Revenue thinks proper:

Provided further that an application to the Central Board of Revenue under this rule shall be presented to the Excess Profits Tax Officer before the expiry of the period specified in the notice issued under sub-section (1) of section 13 of this Act.

- (2) Where sub-rule (1) of this rule has effect on the application of the person carrying on any business, any computation of capital of the business made before the making of the application, and any assessment affected by that computation shall be revised accordingly."

STATEMENT OF OBJECTS AND REASONS.

The United Kingdom Finance (No. 2) Act, 1939, which is closely followed by the (Indian) Excess Profits Tax Act, 1940, has been amended by later Acts with a view to remedying certain hardships and anomalies which experience has shown to be likely to arise. The object of the present Bill is to amend the latter Act so as to remedy similar hardships and anomalies. The provisions of the Bill are explained in the notes on clauses which follow.

A. J. RAISMAN.

NEW DELHI;

The 23rd October, 1940.

NOTES ON CLAUSES.

Clause 2—amends clause (21) of section 2 of the Act so as to secure that, in the case of a partnership one of the partners in which is a company not director-controlled, only the appropriate statutory percentage is allowed in respect of the company's capital therein.

Clause 3 and clause 7 (b)—make directions given under section 6 (3) or section 26 (1) effective for subsequent chargeable accounting periods, and also give finality to such directions.

Clause 4 (a).—Sub-sections (3) and (4) of the Act provide that in the case of a change of ownership or of an amalgamation on or after 1st September, 1939, the successor is to have the advantage of the predecessor's standard of profits on condition that the price paid for any assets is ignored in computing the successor's capital. The amendment makes the condition apply also to the value of acquired assets for the purpose of computing depreciation allowances.

Clauses 4 (b), (c) and (d).—The amendments, by recasting sub-sections (5) and (6) of section 8, make it possible, in the case of a change in the constitution of a partnership before the 1st September, 1939, or the transfer of part of a business on or after 1st September, 1939, or the transfer of a business or the main part of a business after 1st April, 1936, and before 1st September, 1939, for such adjustments of capital and profits to be made as will secure a fair comparison of like with like.

Clause 5 [Section 9 (1)]—provides for the case of a resident company which is the subsidiary of a non-resident company and is financed by the latter. The amendment secures that allowance is given for the whole of the capital of the group that actually earns the Indian profits.

Clause 6 (a) [Section 12 (2)]—corrects the hardship that exists where a United Kingdom company pays in the United Kingdom 100 per cent. of its excess profits, the whole of its profits being earned in India, and receives no allowance for such excess profits tax in computing the profits for Indian Income-tax purposes because none of the profits actually arise in the United Kingdom.

Clause 6 (b)—is a machinery clause only, and ensures that excess profits tax paid in the United Kingdom in respect of a deficiency of profits in a chargeable accounting period is taken into account for Indian Income-tax purposes whether such period is a chargeable accounting period in India or not.

Clause 7 [Section 17 (1)]—makes amendments consequential on the insertion of new section 8 (8) and the changes made in the First Schedule to the Act.

Clause 8 [Section 26 (1) and (3)]—rectifies the omission to provide for the manner in which and within what time limits an application is to be made to the Central Board of Revenue.

Clause 9 (a)—provides that interest or salaries paid without British India, which are included in profits for income-tax purposes only in order to secure collection of the tax, are not to be included in profits for excess profits tax purposes.

Clause 9 (b)—secures that, in the case of banking, insurance or dealing in investments which forms part of a business not consisting wholly or mainly in such activities and not, therefore, within Rule 2 (2) of Schedule I, the investment income from such part business is to be included in profits for excess profits tax purposes.

Clause 9 (c) (Rule 7, Schedule I)—corrects the anomaly by which, in the case of a director-controlled company, while the excess of directors' remuneration in a chargeable accounting period over that in the standard period is disallowed, no allowance can be made in the converse position.

It provides also for proper adjustments being made in a case where a company was director-controlled in the standard period but not in a chargeable accounting period or where the converse position obtains.

Clause 9 (d)—gives power to make suitable adjustments in cases where, either in the standard period or in a chargeable accounting period, a deduction is allowable for income-tax purposes which does not represent a sum reasonably and properly attributable thereto. The amending clause allows a more equitable comparison of the profits of the two periods in question.

Clause 10 (a)—provides that in computing capital any other allowance (in addition to depreciation) in respect of reduced values of assets, which is made in computing profits is to be deducted from the cost of assets in computing capital.

Clause 10 (b)—provides similarly for the deduction, in computing capital, of any allowances made, in computing profits, in respect of accrued liabilities.

Clause 10 (c)—provides for allowance to be made in the case of assets which were inherently unproductive in the standard period but which become productive in a chargeable accounting period.

(34) The Training Institution Examination for Women Teachers, United Provinces."

No. 1402A.R.—13th December 1940.—Whereas the validity of the election of Rai Sahib Jogendra Nath Roy by the Burdwan Division North-East (Rural) General Constituency as a member of the Bengal Legislative Council has been called in question by an election petition duly presented by Babu Girindra Kumar Chatterjee under the provisions of Part III of the Government of India (Provincial Elections) (Corrupt Practices and Election Petitions) Order, 1936, and of the Bengal Legislative Assembly and the Bengal Legislative Council Electoral (Election Expenses and Election Petitions) Rules, 1936;

And whereas in accordance with the provisions of paragraph 8 of Part III of the said Order the Commissioners appointed for the trial of the said petition have duly submitted their report to the Governor;

Now, therefore, in pursuance of the provisions of sub-paragraph (3) of paragraph 8 of Part III of the said Order, the Governor is pleased hereby—

- (1) to order in accordance with the report of the Commissioners—
 - (a) that the said petition shall be dismissed, and
 - (b) that the petitioner Babu Girindra Kumar Chatterjee shall pay to the respondent Rai Sahib Jogendra Nath Roy the sum of rupees one hundred and seventy as costs and to the Provincial Government the sum of rupees one hundred and nineteen as the costs of the Advocate-General, and
- (2) to publish the said report in the *Calcutta Gazette*.

By order of the Governor,

A. E. PORTER,

Addl. Secy. to the Govt. of Bengal.

In the Court of the Election Tribunal.

PRESENT:

Sir S. K. Ghose, President.

Mr. K. C. Chunder, I.C.S.,

Mr. S. Sen, I.C.S.,

Commissioners.

Girindra Kumar Chatterji—Petitioner,

versus

Rai Sahib Jogendra Nath Roy—Respondent.

The 2nd December 1940.

This is a petition presented by one Girindra Kumar Chatterji calling into question the election of the Respondent Rai Sahib Jogendra Nath Roy as a member of the Bengal Legislative Council from the Burdwan Division North-East (Rural) General Constituency which was held on the 16th March 1940. The ground on which the petition is based is stated to be that one of the candidates at the aforesaid election, Babu Jitendra Lal Banerji, died at about 7-30 a.m. on the date of the election, that is to say, the 16th of March 1940, but that the polling was allowed to be held at 10 a.m. on the same day. Under the Rules, notices of the petition were duly issued and served on the parties and also published in the *Calcutta Gazette* of 14th November 1940, notifying that the said petition would be heard by the Tribunal at 11 a.m. on Monday, the 2nd December 1940, and other subsequent days as might be determined thereafter, at Anderson House, Alipore. On the matter being taken up for hearing to-day, there is appearance on behalf of the Respondent Rai Sahib Jogendra Nath Roy and also on behalf of the Advocate-General, but there is no appearance on behalf of the Petitioner Girindra Kumar Chatterji, although his name was duly called out at the time of the hearing. Mr. N. O. Chatterji appearing for the Respondent contends that the proceedings before

the Tribunal must be governed by the Civil Procedure Code under the provisions of Rule 31, Part III, of the Bengal Legislative Assembly and the Bengal Legislative Council Electoral (Election Expenses and Election Petitions) Rules, 1936. Mr. Chatterji further states that his client does not admit the claim made in the petition. The relevant provision of the Civil Procedure Code is Order No. 9, Rule 8, and since the Defendant appears and the Plaintiff does not appear when the suit is called on for hearing, the Court shall make an order that the suit be dismissed, the Defendant not admitting the claim or any part thereof. Mr. Bose appearing for the Advocate-General agrees that this contention is correct.

In our opinion the contention must be given effect to. We further note that a letter has been received from the Commissioner of the Burdwan Division, being letter No. 2628J., dated 1st December 1940, which challenges the allegation in the petition that the Returning Officer had knowledge of the death of Mr. Jitendra Lal Banerji prior to the holding of the poll. In any case, the petition must stand dismissed for the non-appearance of the Petitioner and the election of the Respondent, Rai Sahib Jogendra Nath Roy, will stand valid. We also think that the Petitioner should be made liable for costs. We accordingly report that the petition be dismissed and that the Petitioner do pay the costs of the Respondent and also of the Advocate-General, these costs being assessed as Rs. 170 payable to the Respondent and Rs. 119 payable to the Advocate-General.

S. K. GHOSE,
President.

K. C. CHUNDER,
S. SEN,
Commissioners.

New Delhi, the 15th February 1940.

No. 66-C. W. (3)/40.—The following Order of His Majesty in Council is published for general information:—

AT THE COURT AT BUCKINGHAM PALACE.

The 27th day of November, 1939.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS His Majesty has been compelled to take up arms against Germany in defence of the fundamental right of nations to a free and peaceful existence:

AND WHEREAS German forces have in numerous cases sunk merchant vessels, British, Allied and neutral, in violation of the rules contained in the Submarine Protocol, 1936, to which Germany is a party:

AND WHEREAS merchant vessels, British, Allied and neutral, have been sunk by mines laid by German forces indiscriminately and without notification, in contravention of the obligations of humanity and the provisions of the Hague Convention No. VIII of 1907 to which Germany is a party:

AND WHEREAS the sinking of these vessels has been effected without regard to their nationality or destination or to the nature ownership or destination of their cargoes:

AND WHEREAS these acts have already resulted in grave loss of non-combatant life, British, Allied and neutral:

AND WHEREAS it is manifest that the German Government have deliberately embarked on a policy of endeavouring to destroy all seaborne trade between the Allied and other countries by a ruthless use of the forces at their disposal, contrary to the laws and customs of war, the rights of neutrals and the obligations of humanity:

AND WHEREAS this action on the part of the German Government gives to His Majesty an unquestionable right of retaliation.

AND WHEREAS the Allies of His Majesty are associated with Him in the steps now to be announced for restricting further the commerce of Germany:

NOW, THEREFORE, His Majesty is pleased, by and with the advice of His Privy Council, to order, and it is hereby ordered, as follows:—

1. Every merchant vessel which sailed from any enemy port, including any port in territory under enemy occupation or control, after the 4th day of December 1939, may be required to discharge in a British or Allied port any goods on board laden in such enemy port.
2. Every merchant vessel which sailed from a port other than an enemy port after the 4th day of December 1939, having on board goods which are of enemy origin or are enemy property may be required to discharge such goods in a British or Allied port.
3. Goods discharged in a British port under either of the preceding Articles shall be placed in the custody of the Marshal of the Prize Court, and, unless the Court orders them to be requisitioned for the use of His Majesty, shall be detained or sold under the direction of the Court. The proceeds of goods so sold shall be paid into Court.

On the conclusion of peace such proceeds and any goods detained but not sold shall be dealt with in such manner as the Court may in the circumstances deem just: provided that nothing herein shall prevent the payment out of Court of any such proceeds or the release of any goods at any time (a) if it be shown to the satisfaction of the Court that the goods had become neutral property before the date of this Order, or (b) with the consent of the proper officer of the Crown.

4. The law and practice in Prize shall, so far as applicable, be followed in all cases arising under this Order.
5. Nothing in this Order shall affect the liability of any vessel or goods to seizure or condemnation independently of this Order.
6. For the purposes of this Order the words "goods which are of enemy origin" shall include goods having their origin in any territory under enemy occupation or control, and the words "goods which.....are enemy property" shall include goods belonging to any person in any such territory.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 2016L.C.—14th December, 1940.—The following report of the Select Committee on the Bengal Land-revenue Sales (Amendment) Bill, 1940 by Mr. Nur Ahmed, M.L.C., with the Bill embodying amendments recommended by the Committee, is hereby published for general information.

**The Report of the Select Committee on the Bengal Land-Revenue Sales
(Amendment) Bill, 1940, by Mr. Nur Ahmed, M.L.C.**

We, the members of the Select Committee to which the Bengal Land-Revenue Sales (Amendment) Bill, 1940, by Mr. Nur Ahmed, M.L.C., was referred by a motion carried in the Bengal Legislative Council on the 23rd August, 1940, have the honour to submit this our final report with the Bill embodying amendments recommended by us. Matters recommended by us to be omitted have been printed in italics and enclosed in square brackets and all new matters recommended to be inserted have been underlined.

The Committee met for the first time on the 18th September, 1940, and concluded their sitting on the 12th November, 1940.

The Bill has not been altered by our recommendation to the extent requiring republication.

The changes made by us are detailed below.

Long Title and Preamble.—In consequence of our insertion of clause 3 in the Bill, we have changed the Long Title and the Preamble.

Clause 1.—We have numbered this clause and made slight changes from drafting point of view.

Clause 2.—We have numbered this clause and made drafting changes. The words "estate or share of an estate" have been substituted for the words "immovable property" to follow the language of the main Act; and in place of "5 per cent." we have substituted "3 per cent." of the purchase money payable to the purchaser, as we think this amount quite sufficient. We have also omitted the provision about the payment to the Collector of public demands.

We have redrafted the proposed section 37B. We consider it advisable that the notice of application should be given to the purchaser only and not to all.

We have provided in sub-section (3) that an appeal shall lie to the Commissioner.

The proposed section 37C has been modelled on order 21, rule 93, of the Civil Procedure Code.

We have inserted proposed section 37D on the lines of section 171 of the Bengal Tenancy Act, 1885.

New clause 3.—This has been inserted by us to cover the case of sales of *khas mahal* tenures.

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly, on the 5th November, 1940:—

L. A. BILL No. 38 OF 1940.

A Bill to enable companies in British India to make donations to public funds formed, and to make investments in Government loans floated, for the purpose of assisting the prosecution of the present war.

WHEREAS it is expedient to enable companies in British India to make donations to public funds formed, and to make investments in Government loans floated, for the purpose of assisting the prosecution of the present war;

AND WHEREAS it is also expedient to remove doubts as to the legality of such donations and investments, where already made;

It is hereby enacted as follows:—

Short title.

1. This Act may be called the War Donations and Investments (Companies) Act, 1940.

Interpretation.

2. In this Act "Government loan" includes a loan floated by the Government of the United Kingdom.

Power of
companies to
make donations
and investments.

3. Any company formed and registered under the Indian Companies Act, 1913, or under the Indian Companies Act, 1882, or under the Indian Companies Act, 1866, or under any Act or Acts repealed thereby may, notwithstanding anything contained in the Indian Companies Act, 1913, and notwithstanding that the memorandum of association or the articles of association of the company do not enable it so to do, by special resolution authorise the making of a donation from the company's assets to a public fund formed, or the making of an investment of the company's assets in a Government loan floated, for the purpose of assisting the prosecution of the present war.

VII of 1913.
VI of 1882.
X of 1866.

VII of 1913.

Validation of
donations and
investments
already made.

4. Any donation to a public fund formed, and any investment in a Government loan floated, for the purpose of assisting the prosecution of the present war made by any company to which this Act applies between the 3rd day of September, 1939, and the commencement of this Act shall be as valid in all respects as if it had been made in accordance with the provisions of section 2, and after the commencement of this Act.

Decision of
doubts.

5. If any question arises whether for the purposes of this Act a loan is a Government loan floated for the purpose of assisting the prosecution of the present war or whether a fund is a public fund formed for the purpose of assisting the prosecution of the present war, the question shall be decided by the Central Government whose decision shall be final.

STATEMENT OF OBJECTS AND REASONS.

Cases have come to light in which certain clubs registered under the Indian Companies Act, 1913, have felt themselves legally debarred from making donations to war funds because their Memoranda of Association do not authorise such donations and those Memoranda cannot be altered under the existing provisions of the Act so as to make such contributions permissible.

It is therefore proposed to enact legislation enabling a company registered under that Act, whether a club or not, to make any contributions it wishes to war funds notwithstanding any legal impediments of the character mentioned above. The Bill is designed to achieve this object, and to give retrospective validation to any action of this kind already taken by a company since the outbreak of war.

"(3) The excess charge referred to in sub-section (1) and sub-section (2) shall be a sum equivalent to the amount otherwise payable under those sub-sections, or eight annas, whichever is greater:

Provided that where the passenger has immediately after incurring the charge and before being detected by a railway servant notified to the railway servant on duty with the train the fact of the charge having been incurred, the excess charge shall be one-sixth of the excess charge otherwise payable calculated to the nearest anna, or two annas, whichever is greater."

(b) in sub-section (4), for the words beginning with "the sum payable by him shall" and ending with "be paid to the railway administration" the following words shall be substituted, namely:—

"any railway servant appointed by the railway administration in this behalf may apply to any Magistrate for the recovery of the sum payable as if it were a fine, and the Magistrate shall order it to be so recovered, and may order that the person liable for the payment shall in default of payment suffer imprisonment of either description for a term which may extend to one month. Any sum recovered under this sub-section shall, as it is recovered, be paid to the railway administration";

(c) after sub-section (4) the following sub-section shall be added, namely:—

“(5) Any person who, without having obtained the permission of a railway servant, travels or attempts to travel in a carriage without having a proper pass or ticket with him, or in a carriage of a higher class than that for which he has obtained a pass or purchased a ticket, or in a carriage beyond the place authorised by his pass or ticket, or who being in a carriage fails or refuses to present for examination or to deliver up his pass or ticket immediately on requisition being made therefor under section 69, may be removed from the carriage by any railway servant authorised by the railway administration in this behalf or by any other person whom such railway servant may call to his aid, unless he then and there pays the fare and the excess charge which he is liable to pay under this section.”

STATEMENT OF OBJECTS AND REASONS.

Experience has shown that the provisions in the Indian Railways Act, 1890, relating to ticketless travellers are insufficiently deterrent. The Legislative Assembly in 1936-37 considered and referred to a Select Committee a Bill, which has since lapsed, for the purpose of remedying this defect. The present Bill has the same object and seeks to achieve it mainly by the provision of more appropriate penalties than are at present possible. The Bill also seeks to place remaining in a carriage without a ticket on the same footing as entry into a carriage without a ticket, and it reproduces a provision, contained in the previous Bill, for the ejection of ticketless travellers.

N.B.—The apparatus and materials are to comply in all respects with the specifications and standard patterns. The standard patterns, except No. XXI, are held by the Deputy Warden of the Standards, Board of Trade. Pattern No. XXI is held by H. M. Inspectors of Explosives, Home Office.

SPECIFICATIONS OF MATERIALS.

Specification A. Acid, acetic.—The acetic acid is to be clear, colourless, and free from all impurities, and is not to contain less than 96 per cent. CH_3COOH . When 1 c.c. of N/10 potassium permanganate solution is added to 100 c.c. of the acetic acid maintained at 15°C ., the distinctive colour is to remain for not less than 15 minutes.

One drop of the diluted acetic acid—one volume of acetic acid diluted with four volumes of distilled water—when placed by means of a glass rod on freshly-prepared potassium iodide-starch paper is to produce no colour.

Specification B. Chalk, French.—The French chalk is to be equal in colour to the standard sample, and is not to contain more than 0.5 per cent. of moisture.

The bulk of the French chalk is to be such that a volume of 50 c.c. will weigh 23.5 ± 1.0 grammes. This is to be determined as follows:—A glass funnel, the stem of which is 11 cm. in length, tapering internally from 8 mm. at the top to 5 mm. at the end, is to be clamped vertically above a 50 c.c. cylinder so that the mouth of the latter is 7 cm. below the lowest point of the funnel. The cylinder is to be 2.5 cm. in internal diameter, with a ground edge. The French chalk is to be poured gradually into the funnel and allowed to flow into the cylinder until the latter overflows. This should take one minute. The surface of the chalk is then to be levelled off, without tapping or shaking the cylinder, by drawing a straight edge over the mouth of the cylinder. The cylinder and contents are then to be weighed.

The fineness of the French chalk is to be such that it will all pass, without rubbing, through a 0.075 mm. wire sieve of 6,400 meshes per square centimetre.

The French chalk is not to contain more than 0.1 per cent. of soluble alkali salts calculated as CaCO_3 . This is to be determined as follows:—

10 grammes of the chalk are to be boiled with 250 c.c. of water for one minute, filtered, washed, and the filtrate titrated with N/10 hydrochloric acid.

The French chalk, when warmed with hydrochloric acid, is not to give off more than 1 per cent. and not less than 0.25 per cent. of carbonic acid gas.

The French chalk is not to absorb more than 0.5 per cent. of moisture after being dried at 100°C . till constant in weight, and then exposed under a bell-jar to a saturated atmosphere at 15°C . to 20°C . for 24 hours.

Note.—Before use in heat test experiments the French chalk is to be carefully washed with distilled water, dried in a water oven at 65 – 70°C ., and exposed to a saturated atmosphere for 24 hours. It is to be kept in a well-stoppered bottle.

Specification C. Glycerine.—The glycerine is to comply with the latest edition of the British Pharmacopœia Specification in all respects.

Specification D. (tentative). Paper, filter.—The paper for making heat test paper is to consist entirely of pure normal cotton cellulose of strongly resistant quality and free from any loading or sizing.

During manufacture, the paper is not to be submitted to artificial heat of any kind.

The paper is to have a smooth white surface, and both sides are to be as nearly alike as possible.

The average length of the fibres is to be 2 ± 0.5 mm.

Ten sheets, when measured with a Ciceri Smith's patent fixed pressure micrometer, are to have a thickness of 1.8 ± 0.2 mm.

The last treatment in its preparation is to be a thorough washing with pure distilled water and subsequent airdrying in a pure atmosphere.

The paper is to be free from all traces of chemical or other impurity, particularly acids, chlorine and peroxides.

On boiling with 3 per cent. caustic soda solution for 60 minutes, the paper is not to lose more than 7.5 per cent. of its weight.

When heated for 15 minutes at 100° C. with Fehling's solution, diluted with twice its volume of boiling water, it is not to produce more than 1.25 per cent. of its weight of cuprous oxide (Cu_2O).

It is to be supplied in sheets 50 cm. long by 15 cm. wide, and each 100 sheets packed separately in a hermetically sealed tin case closed by a tear-off strip.

For use in the extraction of nitro-glycerine from dynamite it is to be supplied in circles 5.5 cm. in diameter, each 100 papers being packed separately.

Papers, standard tint.—The standard tint papers are to be made by the method described in, and are to conform to the conditions laid down in Appendix I.

Specification E. Papers, test.—The papers are to be prepared and tested by the method laid down in Appendix II.

Each batch of papers is to be tested by carrying out four consecutive tests of four papers on each of two days. The mean test obtained is to be 18.5 ± 0.75 minutes, and the mean deviation from the mean not more than ± 0.5 minutes. A test differing from the mean by more than two minutes is to be considered abnormal, and is to be disregarded unless there are more than one of such abnormal tests amongst the 32 papers tested, in which case the batch is to be condemned.

II.—Preparation of the sample to be tested.

All the operations in preparing a sample for testing are to be carried out as expeditiously as possible, avoiding exposure to light, as far as practicable, and the test is to be carried out as soon as the sample is prepared.

In weighing out heat test quantities, an accuracy of ± 0.05 gramme is sufficient. These quantities are to be weighed out into test tubes which have been fitted with rubber rings, the lower surface of which coincides with the bottom line etched on the test tube.

Explosives of Class 3, Nitro-compound, Division 1:—

1. *Dynamite and other nitro-glycerine preparations from which the nitro-glycerine can be conveniently extracted with water in the manner described for dynamite:—*

- (a) The 5.5 cm. glass funnel is to be placed in a hole of the heat test tube stand and 5.5 cm. filter paper, folded in the usual way, placed in it.
- (b) A cartridge of the sample to be tested is to be opened at one end and rotated with one hand, while with the other the contents of the cartridge are to be loosened by means of pressure between the thumb and forefinger. The first half inch of the sample so loosened is to be rejected.
- (c) The cartridge is then to be inverted over the scoop, and the loosening operation continued so as to transfer a portion of the explosive to the scoop.
- (d) When the weight of the sample in the scoop has been adjusted to 13 grammes, the sample is to be transferred to the funnel and pressed down fairly tightly with the flat-headed glass rod until the surface is level.
- (e) The funnel is then to be placed in the heat test tube supported in the heat test tube stand and filled up with distilled water. The stem of the extraction funnel is not to touch the side of the heat test tube.
- (f) When 2 c.c. of nitro-glycerine have been collected in the test tube the extraction funnel is to be removed. The sample is then ready to be heat tested.
- (g) In the event of any water going through with the nitro-glycerine a fresh sample of dynamite is to be extracted.

2. *Carbonite, Monobel Powder, and similar friable nitro-glycerine preparations from which the nitro-glycerine cannot be conveniently extracted with water:—*

- (a) A cartridge of the sample to be tested is to be opened at one end and rotated with one hand, while with the other the contents of the cartridge are to be loosened by means of pressure between the thumb and forefinger. The first half inch of the sample so loosened is to be rejected.
- (b) The cartridge is then to be inverted over the scoop and the loosening operation continued so as to transfer a portion of the explosive to the scoop.
- (c) When the weight of the sample in the scoop has been adjusted to 3.2 grammes, the sample is to be transferred by means of the aluminium funnel, to a heat test-tube, collected at the bottom by gently tapping the side of the tube with the fingers, and pressed down to a height of 3 centimetres by means of the flat-headed glass rod. The sample is then ready to be heat tested.

3. *Blasting Gelatine, Gelatine Dynamite, Gelignite, and analogous preparations:—*

- (a) The wrapper of the cartridge is to be opened out and half an inch of the sample is to be removed with the spatula and rejected. A piece weighing 3.2 grammes as nearly as can be judged is then to be cut off for the test. The sample is to lie on its own wrapper during these operations, and direct contact of the operator's hands with the sample is to be avoided.
- (b) The portion of the sample removed is to be weighed in the scoop and pieces added to, or removed from, it until 3.2 grammes are obtained. This quantity is then to be transferred to the mortar. 6.5 grammes of French chalk are to be weighed out using the spatula and scoop, and also transferred to the mortar.
- (c) The sample is to be incorporated with the French chalk by repeatedly squeezing it with the end of the pestle, until it is in a condition in which it can be ground. The times for normal samples should generally be as follows:—

Blasting gelatine	... 1½ minutes.
Gelatine dynamite	... 1 minute.
Gelignite and similar explosives containing less than 63 per cent. of nitro-glycerine	... ½ minute.

The mixture is then to be ground by a circular movement of the pestle for a further period of half a minute, and should then be homogeneous in appearance.

- (d) The mixture is to be transferred to a test-tube by means of the horn spatula and the aluminium funnel, and gently pressed down to a height of 5 centimetres with the flat-headed glass rod. The sample is then ready to be heat tested.
- (e) The pestle and mortar after each grinding are to be thoroughly washed with tap water, rinsed with distilled water, dried with a clean towel, and finally dried in a bath at 100°C. The pestle and mortar are to be allowed to cool to the ordinary temperature before being used again.

4. *Cordite, Ballistite and other propellants of Class 3, Nitro-compound, Division I:—*

- (1) *Explosives in the form of sticks or tubes:—*

- (a) The operator is to wash his hands carefully, thoroughly rinse them in distilled water, and dry them with a clean towel.
- (b) The sticks or tubes to be tested are to be wiped with clean filter paper.

- (c) The sample is to be reduced to a condition suitable for grinding in the cordite mill by being cut into small pieces about one-eighth inch long by means of the cordite knife, half an inch being rejected from each end of the sticks or tubes to be tested.
- (d) The set of sieves with the lid removed is to be placed under the mill so as to allow the ground material to fall directly on to the top sieve.
- (e) The cut sample is to be transferred from the cordite tray to the mill and ground. The first portion passing through the mill is to be rejected. A sufficient quantity of the sample is to be taken to ensure that enough material is obtained on the second sieve without grinding the whole quantity introduced into the mill.
- (f) The lid is to be replaced on the set of sieves and the sample is sieved for one minute. The material which remains on the second sieve is to be taken for heat test, except in the case of powder in sticks or tubes, the nominal diameter of which is less than 0.03 inch; in this case, the material in the bottom compartment is to be taken for heat test.
- (g) 1.6 grammes of the ground and sieved sample are to be weighed out in the scoop, transferred by means of the aluminium funnel to a heat test tube and collected at the bottom by gently tapping the side of the tube with the fingers. Three such test quantities are to be so weighed out. The sample is then ready to be heat tested.
- (h) The set of sieves and the cordite mill are to be cleaned with the cleaning brush before and after the preparation of each sample.

2. *Explosives in the form of grains for small-arms:—*

- (a) 1.6 grammes of the sample is to be weighed out in the scoop, transferred by means of the aluminium funnel to a heat test tube and collected at the bottom by gently tapping the side of the tube with the fingers. Three such test quantities are to be weighed out. The sample is then ready to be heat tested.

Explosives of Class 3, Nitro-compound, Division 2:—

1. *Nitro-cellulose Pulp:—*

- (a) The operator is to wash his hands carefully, thoroughly rinse them with distilled water, and dry them with a clean towel.
- (b) Six thicknesses of filter paper are to be laid on top of one another. Sufficient of the sample to be tested, to give about 5.6 grammes after the final pressing, is to be spread on the top sheet. Six other thicknesses of filter paper are to be similarly laid over the sample. The whole is then to be placed under pressure as, for instance, in a hand screw press, and pressure applied for three minutes. On removal from the press, the sample is to be rubbed up by hand on the filter paper and again pressed for three minutes on fresh filter paper. The sample is then to be transferred to the rectangular sieve and rubbed through it with the hand.
- (c) 5 grammes of the sieved sample are to be weighed out in the scoop and spread evenly on an aluminium tray.
- (d) The oven is to have been brought to, and is to be maintained at, a temperature of 120°F. (48.9° C.). The tray is to be placed in the oven and kept there for 15 minutes with the door closed.
- (e) The tray is to be removed from the oven and the sample transferred to the top sieve of the set of sieves. The lid is to be replaced, and the sample sieved for two minutes. For this operation the second sieve is not to be used.

- (f) The portion of the sample which passes through the top sieve is again to be spread evenly on an aluminium tray and exposed to the air of the room for four hours.
- (g) 1.3 grammes of the exposed sample are to be weighed out in the scoop and transferred by means of the aluminium funnel to a heat test tube. Two such test quantities are to be so weighed out. The material in each is to be gently pressed down with the flat-headed glass rod to a height of three centimetres. The sample is then ready to be heat tested.
- (h) The wire sieve and the set of sieves are to be cleaned with the cleaning brush before and after each sample has been sieved.

2. *Compressed Guncotton*:—

- (a) About 10 grammes of guncotton are to be removed from the centre of the primer or slab by scraping with the horn spatula.
- (b) The scrapings so obtained are to be placed in the glass beaker two-thirds full of cold distilled water. The sample is to be frequently stirred up in the water during 15 minutes with the flat-headed glass rod, and then allowed to settle. The water is to be poured off and replaced by a similar quantity of distilled water in which the sample is to be frequently stirred up as before during 15 minutes. After settling, the second wash water is to be poured off.
- (c) The operator is to wash his hands carefully, thoroughly rinse them with distilled water, and collect the sample by hand—squeezing out the excess of water.
- (d) Six thicknesses of filter paper are to be laid on top of one another. The washed guncotton is to be spread on the top sheet. Six other thicknesses of filter paper are to be similarly laid over the sample. The whole is then to be placed under pressure as, for instance, in a hand-screw press, and pressure applied for three minutes. On removal from the press, the sample is to be rubbed up on the filter paper by hand and again pressed for three minutes on fresh filter paper. The sample is then to be transferred to the rectangular sieve and fubbed through it by hand.
- (e) 5 grammes of the sieved sample are to be weighed out in the scoop and spread evenly on an aluminium tray.
- (f) The oven is to have been brought to, and is to be maintained at a temperature of 120°F. (48.9° C.). The tray is to be placed in the oven and kept there for 15 minutes, with the door closed.
- (g) The tray is to be removed from the oven and the sample transferred to the top sieve of the set of sieves. The lid is to be replaced, and the sample sieved for two minutes. For this operation the second sieve is not to be used.
- (h) The portion of the sample which passes through the top sieve is to be again spread evenly on an aluminium tray and exposed to the air of the room for four hours.
- (i) 1.3 grammes of the exposed sample are to be weighed out in the scoop and transferred by means of the aluminium funnel to a heat test tube. Two such test quantities are to be so weighed out. The material in each is to be gently pressed down with the flat-headed glass rod to a height of three centimetres. The sample is then ready to be heat tested.
- (j) The wire sieve and the set of sieves are to be cleaned with the cleaning brush before and after each sample has been sieved.

3. *Tonite and analogous compressed nitro-cellulose preparations*:—

- (a) The operator is to wash his hands carefully, thoroughly rinse them with distilled water, and dry them with a clean towel.

- (b) The sample is to be held over the rectangular sieve and a sufficient quantity for the tests required is to be removed from the centre of the cartridge by scraping with the horn spatula.
- (c) The explosive on the sieve is then to be rubbed through with the hand and the sieved material spread evenly on an aluminium tray.
- (d) The oven is to have been brought to, and is to be maintained at a temperature of 120°F. (48.9°C.). The tray is to be placed in the oven and kept there for 15 minutes with the door closed.
- (e) The tray is to be removed from the oven and the sample transferred to the top sieve of the set of sieves. The lid is to be replaced and the sample sieved for two minutes. For this operation the second sieve is not to be used.
- (f) The portion of the sample which passes through the top sieve is to be again spread evenly on an aluminium tray and exposed to the air of the room for four hours.
- (g) 1.3 grammes of the exposed sample are to be weighed out in the scoop and transferred, by means of the aluminium funnel, to a heat test tube. Two such test quantities are to be so weighed out. The material in each is to be gently pressed down with the flat-headed glass rod to a height of three centimetres. The sample is then ready to be heat tested.
- (h) The wire sieve and the set of sieves are to be cleaned with the cleaning brush before and after each sample has been sieved.

4. Nitro-cellulose Propellants:—

(1) Explosives in the form of sticks or tubes:—

- (a) The operator is to wash his hands carefully, thoroughly rinse them in distilled water, and dry them with a clean towel.
- (b) The sticks or tubes to be tested are to be wiped with clean filter paper.
- (c) The samples is to be reduced to a condition suitable for grinding in the cordite mill by being cut into small pieces about one-eighth inch long by means of the cordite knife, half-an-inch being rejected from each end of the sticks or tubes to be tested.
- (d) The set of sieves, with the lid removed, is to be placed under the mill so as to allow the ground material to fall directly on to the top sieve.
- (e) The cut sample is to be transferred from the cordite tray to the mill and ground. The first portion passing through the mill is to be rejected. A sufficient quantity of the sample is to be taken to ensure that enough material is obtained on the second sieve without grinding the whole quantity introduced into the mill.
- (f) The lid is to be replaced on the set of sieves and the sample is to be sieved for one minute. The material which remains on the second sieve is to be taken for heat test, except in the case of powder in sticks or tubes, the nominal diameter of which is less than 0.03 inch; in this case, the material in the bottom compartment is to be taken for heat test.
- (g) 1.6 grammes of the ground and sieved sample are to be weighed out in the scoop, transferred by means of the aluminium funnel to a heat test tube, and collected at the bottom by gently tapping the side of the tube with the fingers. Three such test quantities are to be so weighed out. The sample is then ready to be heat tested.
- (h) The set of sieves and the cordite mill are to be cleaned with the cleaning brush before and after the preparation of each sample.

(2) *The explosives in the form of grains for small-arms:—*

- (a) A quantity of the sample sufficient for the tests required is to be spread evenly on an aluminium tray.
- (b) The oven is to have been brought to, and is to be maintained at, a temperature of 120°F. (48.9°C.). The tray is to be placed in the oven and kept there for 15 minutes, with the door closed.
- (c) The tray is to be removed from the oven and exposed to the air of the room for 4 hours.
- (d) 1.3 grammes of the exposed sample are to be weighed out in the scoop and transferred by means of the aluminium funnel to a heat test tube. Three such test quantities are to be so weighed out. The sample is then ready to be heat tested.

5. *Ammonite, Bellite, Roburite and analogous preparations:—*

- (a) A cartridge of the sample to be tested is to be opened at one end and rotated with one hand, while with the other the contents of the cartridge are to be loosened by means of pressure between the thumb and forefinger. The first half inch of the sample so loosened is to be rejected.
- (b) The cartridge is then to be inverted over the scoop and the loosening operation continued.
- (c) When the weight of the sample in the scoop has been adjusted to 1.3 grammes, the sample is to be transferred by means of the aluminium funnel to a heat test tube, and collected at the bottom by gently tapping the side of the tube with the fingers. The sample is then ready to be heat tested.

III.—Application of the Test.

(a) The water bath is to be fitted up and is to be levelled and filled with water up to the outflow. It is to be placed on a table of convenient height in such a position that the heat test tint can readily be observed by reflected light. No part of the apparatus is to be exposed to direct sunlight.

(b) The thermometer, fixed in the rubber stopper, is to be inserted in the wire cage provided for the purpose on the under side of the lid of the water bath to a depth of 3 inches. The water is to be heated to the required temperature and maintained at a constant temperature and depth. The temperatures for the various explosives are given in Table I.

(c) The glass rod with platinum wire hook is to be inserted in the rubber stopper. A test paper is then to be removed from the brown glass bottle by means of the forceps, placed on the glass plate so that its edges coincide with the lines on the plate, and pierced by passing the needle through the paper and the hole in the plate. The test paper is then to be held by means of the forceps, and a mixture of equal volumes of distilled water and glycerine is to be applied to the upper edge of the test paper by means of the glass rod of the dropping bottle in sufficient quantity to moisten the upper half of the test paper by the time the test is complete. The platinum wire hook of the glass rod is then to be passed through the hole in the paper. At no time is the operator to touch the paper with his fingers.

(d) The rubber stopper carrying the glass rod and test paper is at once to be firmly pressed into the test-tube containing the explosive to be tested, until the bottom of the stopper coincides with the top line etched on the test-tube, and the position of the glass rod is to be adjusted so that the lower edge of the wet portion of the test paper, which edge is to be approximately horizontal, coincides with the middle etched line on the test-tube. The test-tube is then to be inserted in one of the wire cages of the lid of the water bath, so that the bottom line etched on the test-tube coincides with the upper surface of the lid. The rubber ring is to be pressed down on to the bath and the cap placed in position over the tube.

The quantities of the various explosives to be placed in the test-tube are given in Table I.

The test paper is not to be inspected by lifting the cap until shortly before the time the explosive ought to stand the test as given in Table I.

(c) The test is completed when the faint brown line, which after a time makes its appearance at the margin between the wet and the dry portions of the test paper, equals in depth of tint the brown line on the standard tint paper.

For any given explosives to pass the test, the time elapsing between the introduction of the tube into the bath and the production of a tint equal to the standard must not be less than the time given in Table I.

After the test is finished, the explosive is to be carefully removed from the tubes, and the tubes thoroughly washed out with tap water by means of the test-tube brush. They are then to be rinsed out and allowed to drain for a few minutes. The washing is repeated with distilled water, the tubes rinsed, allowed to drain, and finally dried in a bath at 100° C. The tubes are to be allowed to cool to the ordinary temperature before being used again.

IV.—Exudation and Liquefaction Test for Blasting Gelatine, Gelatine Dynamite and analogous Preparations.

TEST FOR LIQUEFACTION.

A cylinder of blasting gelatine is to be cut from the cartridge to be tested the length of the cylinder to be about equal to its diameter and the ends being cut flat.

The cylinder is to be placed on end on a flat surface without any wrapper and secured by a pin passing vertically through its centre.

In this condition the cylinder is to be exposed for one hundred and forty-four (144) consecutive hours (six days and nights) to a temperature ranging from 85° to 90° Fahr. (inclusive), and during such exposure the cylinder shall not diminish in height by more than one-fourth of its original height, and the upper cut surface shall retain its flatness and the sharpness of its edge.

Note.—If the blasting gelatine and the gelatine dynamite to be tested be not made up in a cylindrical form, the above test is to be applied with the necessary modifications.

TEST FOR LIABILITY TO EXUDATION.

There shall be no separation from the general mass of the blasting gelatine or gelatine dynamite of any nitro-glycerine under any conditions of storage, transport or use, or when the material is subjected three times in succession to alternate freezing and thawing, or when subjected to the liquefaction test hereinbefore described.

V.—*Picric Acid.*

(1) The material shall contain not more than 0.3 part of mineral or non-combustible matter in 100 parts by weight of the material dried at 160° Fahr.

(2) It should not contain more than a minute trace of lead.

(3) One hundred parts of the dry material shall not contain more than 0.3 part of total (free and combined) sulphuric acid, of which not more than 0.1 part shall be free sulphuric acid.

(4) Its melting point should be between 248° and 253° Fahr.

VI.—*Testing Chlorate-Mixtures.*

The material must not be too sensitive* and must show no tendency to increase in sensitiveness on keeping.

The material must contain nothing liable to reduce the chlorate.

Chlorides calculated as potassium chloride must not exceed 0.25 per cent.

The material must contain no free acid, or substance liable to produce free acid.

Explosives of this Class containing nitro-compounds will be subject to the heat test as if they belonged to Class 3.

APPENDIX I.

PREPARATION OF STANDARD TINT PAPERS.

0.48 gramme of the finest yellow ochre, 0.2 gramme of raw umber and 5 grammes of fine white gum arabic, all of which have been very finely ground in an agate mortar, are weighed into a stoppered bottle of about 150 c.c. capacity and 100 c.c. of water added. The whole is shaken in the cold until the gum is dissolved. The suspension is then well shaken and allowed to stand for 1 hour.

A stylographic pen is then filled from the centre of the suspension and, with the aid of a ruler, lines are drawn at a steady pace across one side of a sheet of filter paper to Specification D. The sheet is then cut up into rectangular strips 1 cm. broad by 2 cm. long, each with a line across the middle perpendicular to the length of the strip. The breadth of the line must be not less than 0.5 mm. nor more than 1 mm.

In order to maintain continuity as regards depth of tint, strips in which the tint does not correspond with that of the sealed pattern are to be rejected.

* They will be considered too sensitive if they can be exploded however partially by means of a glancing blow with a broomstick on soft wood (such as deal).

APPENDIX II.

PREPARATION AND TESTING OF HEAT TEST PAPERS.

*Preparation.**Potassium Iodide.*

The purest potassium iodide obtainable commercially is to be purified by triple re-crystallisation from pure ethyl alcohol, diluted by the addition of one-twentieth of its volume of distilled water. The crystals are to be kept as small as possible, and are to be spread out on clean filter paper, resting on a glass plate, and allowed to dry in the dark. When dry, they are to be placed in a thin layer on the bottom of a platinum crucible and heated to a dull red heat for one minute over a spirit lamp burning pure alcohol. When cold, the crystals are to be transferred to a brown glass stoppered bottle, from which the quantities required are to be weighed out.

The potassium iodide used for each batch of filter paper is to be prepared as above immediately before use.

Starch.

The starch used is to be the best maize starch in the form of corn-flour. It is to be purified immediately before use by washing six times by decantation with freshly distilled water. It is then to be placed on a porous plate of unglazed porcelain, allowed to dry in a warm atmosphere in the dark, and stoppered in a brown glass bottle from which the quantities required are to be weighed out.

Preparation of the Dipping Solution.

220 c.c. of freshly distilled water are to be placed in a Jena glass flask and raised to boiling point over a spirit lamp burning pure spirit. 3 grammes of the starch, prepared as above, are to be suspended in 30 c.c. of distilled water, and the mixture poured into the 220 c.c. of boiling water, with continuous shaking. The whole is to be kept boiling gently, and shaken occasionally for 5 minutes. The solution of starch so prepared is to be added to a solution of 1 gramme of the purified potassium iodide in 250 c.c. of freshly distilled water, and the solution well mixed. The mixture is to stand overnight in a dark room. The following day, the clear supernatant liquid is to be carefully syphoned off and used immediately for dipping the paper.

If it is desired to dip a large batch of paper, the foregoing quantities may be multiplied in order to obtain sufficient solution.

Dipping the Papers.

The clear potassium iodide and starch solution is to be poured into a porcelain tray, which is to be kept exclusively for this operation. Sheets of filter paper to Specification D are to be passed through it singly, so that all except 3 cm. at the end of the strip of paper, passes beneath the surface of the liquid.

The strip of paper is to be held above the tray by the dry portion, and a glass rod passed down each side to remove the excess of solution. It is then to be suspended by the undipped portion in a warm dark room, cupboard, or oven until dry.

It is advisable to nip a small piece out of the edge of each sheet at the boundary line between the wet and dry portions as a guide in subsequent cutting.

Cutting and Trimming the Test Paper.

In cutting and trimming heat test paper the operator is to wear clean cotton gloves.

When the sheets are dry they are to be trimmed by cutting off the unclipped end about 0.5 cm. below the edge of the undipped portion. 0.5 cm. strips are also cut from the other three edges. The sheets are then to be stored in amber-coloured glass jars, kept in the dark.

When a batch of paper has been passed for issue the sheets are to be cut up into rectangular pieces 1 cm. by 2 cm., and are to be issued in this form.

All the above operations are to be carried out in a building specially reserved for this work. This building is to be protected from the direct access of the sun's rays, and is, as far as possible, to be kept dark.

Testing of Heat Test Papers by the Diffusion Test.

Apparatus and materials required:—

No.	1. Acheson graphite	Pieces,	1
	2. Acid, sulphuric, normal solution	A supply.	
	3. Annulus, aluminium		2
	4. Cap, light-tight pasteboard ..		1
	5. Cylinder, glass, with rubber stopper		1
	6. Cylinder, measuring 100 c.c. ..		1
	7. Ferrous ammonium sulphate ..	A supply.	
	8. Jar, cylindrical, brown glass ..		1
	9. Pipette, 10 c.c.		1
	10. Rod, stirring, glass		1
	11. Sodium nitrite solution containing 1.76 gm. in 1 litre	A supply.	
	12. Stopper, rubber, with 4 platinum hooks		1

Application of the Test.

The solutions are to be brought to 15° C. before use. 2 grammes of ferrous ammonium sulphate are weighed out and placed in the glass jar, 90 c.c. of the normal sulphuric acid added and solution effected by stirring with the glass rod. The jar is then placed in a bath of water at 15° C., and must be kept at that temperature throughout the experiment. The Temperature of the air should be 15° C. to 17° C. 10 c.c. of the sodium nitrite solution are then added by means of the pipette and well stirred in. An aluminium annulus is placed centrally over the mouth of the jar and the orifice covered by the graphite slab; over this is placed a second annulus. Good contact between surfaces is to be ensured by exerting a slight pressure and twisting motion.

The glass cylinder with rubber stopper and light tight cap are then placed on the second annulus, and the assembled apparatus is allowed to stand for 20 minutes. After the expiration of the 20 minutes, the light tight cap and the glass cylinder are removed, the rubber stopper taken out of the cylinder, and the cylinder waved several times through the air. As soon as possible, four of the heat test papers to be tested are moistened with glycerine solution, placed on the platinum hooks of the stopper, the stopper inserted in the cylinder, and the cylinder and light tight cap again placed in position on the second annulus, and the time noted.

When the papers read by reflected light reach the standard tint, the time is again noted; the difference gives the time of test. Standard tint papers to be read by reflected light are used for comparison.

The cylinder is then removed, uncorked, waved several times through the air, and a fresh set of papers is at once put on for test. After four sets of tests have been made, the graphite slab must be heated to 200° C. for 1 hour and allowed to cool in an evacuated desiccator over potash for at least 16 hours before being used again.

A batch of papers is to be tested by carrying out four consecutive tests of four papers on each of two days.

TABLE SHOWING DISTANCES WHICH SHOULD ORDINARILY BE KEPT CLEAR IN AND ROUND MAGAZINE PREMISES.

[See clause (b) of note (1) to Form C.]

In any case where any of the items enumerated in the first column of this Table is, in the opinion of an Inspector of Explosives, effectively screened from a magazine either by the natural features of the ground or by good and substantial artificial mounds of earth or mine refuse, of such height that a line drawn from any part of the magazine to any part of the item in question will pass through the intervening ground or mound, the distance from that item (except for quantities of one thousand pounds of explosives and under) may be reduced to one-half. Provided that when a natural hill so intervenes as to afford a degree of protection which, in the opinion of an Inspector of Explosives, justifies a further reduction, the distance shown in the Table may be reduced to one-quarter. In no case, however, is the distance from a Viceregal Residence to be less than one mile.

N. R.—The figures in small italics are the distances to be observed when ordinary gunpowder only is to be stored or other explosives up to the equivalent of five thousand pounds of gunpowder, every half pound of such other explosives being reckoned as one pound of gunpowder. In the case of manufactured fireworks specially approved in writing by the Chief Inspector four pounds gross weight may be reckoned as the equivalent of one pound of other explosive.

[illegible]

[illegible]

NOTE.—(a) This table furnishes the basis on which applications for licences will be considered, but is susceptible to modifications under special circumstances at the discretion of the Chief Inspector.

(b) This rule applies to two or more magazines on the same premises—

(1) belonging to the same occupier, or

(2) so kept by mutual consent of the respective occupants.

(c) Detonators may be kept in an annex near to or adjoining a magazine under the following conditions:—

(1) The amount of explosive contained in the detonators must not exceed 100 lbs. reckoned in the proportion of not less than $2\frac{1}{2}$ lbs. of explosive per 1,000 detonators :— (This proportion represents roughly about 44,000 detonators of " sextuple " strength, with detonators of greater strength the number would be of course less).

(3) The detonator annerex must be so constructed that not less than two feet of masonry and three feet of air-space shall intervene between any detonators in such annexe and the interior of the main magazine.

TABLE SHOWING DISTANCES WHICH SHOULD ORDINARILY BE KEPT CLEAR IN AND ROUND MAGAZINE PREMISES.

[See clause (b) of note (1) to Form C.]

In any case where any of the items enumerated in the first column of this Table is, in the opinion of an Inspector of Explosives, effectively screened from a magazine either by the natural features of the ground or by good and substantial artificial mounds of earth or mine refuse, of such height that a line drawn from any part of the magazine to any part of the item in question will pass through the intervening ground or mound, the distance from that item (except for quantities of one thousand pounds of explosives and under) may be reduced to one-half. Provided that when a natural hill so intervenes as to afford a degree of protection which, in the opinion of an Inspector of Explosives, justifies a further reduction, the distance shown in the Table may be reduced to one-quarter. In no case, however, is the distance from a Viceregal Residence to be less than one mile.

N.B.—The figures in small italics are the distances to be observed when ordinary gunpowder only is to be stored or other explosives up to the equivalent of five thousand pounds of gunpowder. Every half pound of such other explosives being reckoned as one pound of gunpowder. In the case of manufactured fireworks specially approved in writing by the Chief Inspector four pounds gross weight may be reckoned as the equivalent of one pound of other explosive.

17. No explosive shall be sold to any person under the age of 16 years.

18. 19. The licensee shall, at his own expense, provide for the safe custody of the magazine, a guard which shall be of such strength as the District Authority may consider to be sufficient.

RESOLUTION.

New Delhi, the 12th December 1940.

No. B-3.—In their Resolution No. B-3, dated the 25th July 1938, the Government of India announced the appointment of a Committee to review the development of New Delhi and its environs and to advise, in the light of probable needs, on the plan to be followed and the steps to be taken in controlling future development. The Committee reported towards the end of 1939 and their recommendations are receiving the careful consideration of the Government of India. One of the recommendations of the Committee is that a Standing Advisory Committee should be appointed to co-ordinate the activities of the various authorities concerned with the development of New Delhi and its surroundings and to preserve general standards in architectural and other matters. The Government of India have decided to accept the recommendation and are hereby pleased to announce the formation of a Standing Advisory Committee, composed of the following—

Chairman.

The Chief Commissioner, Delhi.

Members.

The Additional Deputy Secretary to the Government of India, Department of Labour.

The Chief Engineer, Central Public Works Department.

The Superintending Engineer, Delhi Province.

The Consulting Architect with the Government of India, Central Public Works Department.

The Superintending Engineer, Health Services, New Delhi.

The President, New Delhi Municipal Committee and Chairman, Delhi Improvement Trust.

The Director, Malaria Institute of India.

The Chief Health Officer, New Delhi.

The Vice-President, New Delhi Municipal Committee.

Mr. Walter George, Architect, New Delhi.

Mr. Badrul-Islam, Curzon Road, New Delhi.

Mr. R. N. B. Bruht, Deputy Chairman, the Punjab Chamber of Commerce, New Delhi.

The Land and Development Officer, New Delhi (who will also act as Secretary to the Committee).

2. The Standing Advisory Committee will be a purely advisory body and as such its jurisdiction will extend to New Delhi, to Government land touching New Delhi, and to the schemes of the Delhi Improvement Trust the areas of which touch the boundaries of New Delhi at any point.

3. The following matters shall be specifically referred to the Standing Advisory Committee:—

(1) All allocation schemes proposed subsequent to the date of this resolution excluding petty allocations which the Authorities concerned may not consider necessary to refer to the Committee in the interests of efficiency.

(Explanation.—"Allocation" means a definite decision to reserve land for a specific purpose or for specific purposes, e.g., for the construction of residential buildings of various classes or of offices, for playing fields, etc.)

(2) All proposals for layout development.

(Explanation.—"Layout development" means the systematic development of land with a view to the construction of more than one individual building.)

(Explanation.—"Essential services" include roads, drains, sewerage, street lighting, domestic lighting, filtered water supply and unfiltered water supply.)

(4) Plans of any individual buildings the cost of which is in the opinion of the Consulting Architect with the Government of India likely to exceed Rs. 1 lakh or which are in his opinion on other grounds of sufficient importance to justify a reference to the Committee.

(Explanation.—"Individual building" includes any building or group of buildings constructed under a single lease, or by a single lessee under two or more leases of adjoining sites.)

(5) Cases relating to allocation, layout development and modifications in layout development will originate with Government, the New Delhi Municipal Committee or the Delhi Improvement Trust. References should in all cases be addressed to the Land and Development Officer as Secretary to the Advisory Committee:—

(a) by Government or the New Delhi Municipal Committee before final administrative approval is accorded; and

(b) by the Delhi Improvement Trust at the time of taking action under Section 36 of the United Provinces Town Improvement Act, 1919, as extended to Delhi under the Education, Health and Lands Department's Notification No. F-23-10/37-H., dated the 2nd March 1937.

NOTE.—At this stage the Consulting Architect with the Government of India shall definitely state to what extent designs should be prepared for lessees and to what extent private designs for buildings estimated to cost less than Rs. 1 lakh require reference to the Committee.

4. The Standing Advisory Committee shall have power to make reference to Standing Sub-Committees. These Sub-Committees shall, however, as far as possible, be so constituted that members would be available at short notice all the year round.

5. The full Standing Advisory Committee shall meet at least twice a year and might meet more frequently if the state of work so demands.

ORDERED that the above Resolution shall be published in the *Gazette of India*, for information.

RESOLUTION—No 1487 L.S.-G.

Calcutta, the 16th December, 1940.

READ—

The reports of the Commissioners of Divisions on the working of district and local boards in Bengal during the year 1938-39.

1. District Boards.—During the year under review, the number of district boards remained the same as in the previous year, viz., 26, with a total number of 694 members of whom 447 were elected and the rest, including 88 officials, were appointed. Two district boards, viz., those of the 24-Parganas and Pabna, were reconstituted during the year under review. As in the preceding year, the district board of Darjeeling continued to be presided over by an official Chairman in the person of the Deputy Commissioner appointed by Government but all the other district boards in the Province elected their own Chairmen. The boards held altogether 391 meetings of which none proved abortive for want of a quorum but 26 meetings were adjourned as against 12 in the preceding year. The average percentage of attendance of members at meetings was highest in Jessore (89·7) and lowest in Murshidabad (60·4). The average percentage of attendance of official members was highest in the

24-Parganas (91·3) and lowest in Bogra (23·07).

2. Local Boards.—As a result of abolition of the local boards in the districts of Birbhum, Dacca, Chittagong, Rangpur and Noakhali, the number of such boards fell from 84 in the preceding year to 70 in the year under review. The 4 local boards in the district of Rangpur, functioned during the first quarter of the year under review and were abolished from June 1938. The total number of members, including those of the local boards of Rangpur, decreased from 1,393 to 1,248 and consisted of 72 officials and 1,176 non-officials. As in the previous years, all the local boards, except 4, were presided over by non-official Chairmen.

In districts where local boards were abolished, the powers of these boards were taken over by the district boards. The local boards in the other districts continued to exercise the same powers as before.

3. Union Committees.—Of the three Union Committees which existed during the year under review, only that at Takdah in the Darjeeling district is reported to have worked satisfactorily. The Union Committee at Hazipur in the 24-Parganas existed in name only and has, since the close of the year under review, been replaced by a union board, while the Committee at Alipur Duars in the district of Jalpaiguri could not work properly for want of a suitable trenching ground, its principal function being conservancy.

4. Financial Features.—The total receipts of district boards during the year under review, excluding opening balances amounted to Rs. 159·24 lakhs, representing a decrease of Rs. 17·44 lakhs as compared with the preceding year's receipts, which was mainly due to the decrease in the receipts under "Local rates" from Rs. 93·05 lakhs to Rs. 79·80 lakhs, under "Education" from Rs. 11·75 lakhs to Rs. 9·38 lakhs and under "Civil Works" from Rs. 26·14 lakhs to Rs. 24·40 lakhs.

The total expenditure chargeable to current income also fell from Rs. 162·63 lakhs to Rs. 156·06 lakhs, mainly owing to the decrease in the expenditure under

"Education" from Rs. 29.87 lakhs to Rs. 26.01 lakhs, under "Medical" from Rs. 42.48 lakhs to Rs. 42.11 lakhs, under "Civil Works" from Rs. 74.28 lakhs to Rs. 68.70 lakhs and under "Debt" from Rs. 17.30 lakhs to Rs. 15.59 lakhs. Otherwise, there was an increased outlay under most of the principal heads of expenditure, the most noticeable being that under "Famine relief" which rose from Rs. 27,963 to Rs. 2.82 lakhs. The total balance at the close of the year was Rs. 47.73 lakhs against Rs. 59.40 lakhs in the preceding year.

5. Education.—The income and expenditure of the district boards under this head fell from Rs. 11.75 lakhs to Rs. 9.38 lakhs and from Rs. 29.87 lakhs to Rs. 26.01 lakhs, respectively, during the year under review, owing to the transfer of primary education to the district school boards in certain districts of the Dacca, Chittagong and Rajshahi Divisions.

The total number of upper primary schools maintained by the district boards was 583. The pupils in these schools consisted of 26,727 boys and 3,426 girls as compared with the previous year's figures of 755 schools with 42,193 boys and 3,707 girls. The number of lower primary schools maintained by the Boards also decreased from 1,088 schools with 52,014 boys and 7,214 girls to 770 schools attended by 32,864 boys and 6,581 girls. The number of aided upper primary schools similarly decreased from 11,702 with 424,919 boys and 108,832 girls in the preceding year to 10,855 attended by 387,556 boys and 103,178 girls. The number of aided lower primary schools was 9,883 with 240,061 boys and 79,179 girls, the corresponding figures in the previous year being 15,160 schools attended by 373,166 boys and 134,205 girls.

Although the number of middle schools maintained by the district boards fell from 43 to 42, the number of students attending them increased from 4,615 to 4,699. The number of middle schools aided by the boards increased from 1,259 with 119,502 students in the preceding year to 1,406 with 137,978 students during the year under review. As in the preceding year, no high school was maintained by any of the boards. The number of such institutions aided by the boards decreased from 15 to 14

but the number of students attending them increased from 3,420 to 3,563.

The number of industrial schools maintained by the district boards decreased from 7 to 5 while the number of other schools maintained by the boards remained unchanged. The number of industrial and other schools aided by the boards, however, increased from 70 to 74 and from 1,065 to 1,152, respectively. The district boards continued to grant scholarships or stipends to students attending technical schools or colleges.

6. Public Health and Medical Relief.

—The total income and expenditure under this head, including sanitation and vaccination, amounted to Rs. 19.46 lakhs and Rs. 42.11 lakhs, against Rs. 19.41 lakhs and Rs. 42.43 lakhs, respectively, in the preceding year.

The total number of dispensaries maintained by the boards increased from 692 to 713 but the expenditure incurred on them decreased from Rs. 13 lakhs to Rs. 12.78 lakhs. The number of dispensaries aided by the boards decreased from 608 to 604 with more than a proportionate decrease in expenditure from Rs. 4.88 lakhs to Rs. 4.33 lakhs. These figures include a number of homeopathic and a few ayurvedic and unani dispensaries.

The increasingly large State-aid given to the thana and village dispensaries under the scheme of subsidies to such institutions was of great assistance to the local bodies in maintaining these dispensaries. The Rural Uplift grant of the Central Government allotted for capital expenditure towards the establishment of dispensaries by union boards or groups of union boards also resulted in an increase in the number of village dispensaries.

Anti-rabic treatment was given in many rural district board dispensaries as well as in the institutions at the district and subdivisional headquarters. The scheme of decentralised anti-rabic treatment also continued to work satisfactorily.

The control of epidemic diseases by preventive and curative measures was, as usual, the principal item of the public health activities of the district boards. The education of the villagers in the general principles of sanitation and hygiene by lantern lectures and other demonstrations formed an important

feature of the activities of the public health staff of the boards. Attendance at these shows and lectures is reported to have been generally satisfactory.

Cholera and small-pox broke out in either sporadic or epidemic form in several districts. In sporadic cases, the district boards took prompt action to check the spread of the diseases, but where they took an epidemic form, the health staff of the district boards had to be largely augmented by officers of the Public Health Department. Preventive measures, such as vaccination, inoculation, disinfection of tanks and wells and the clearing of ditches, jungles and insanitary surroundings, were also carried out, as usual, by the district boards.

The campaign against malaria and kala-azar was carried on with energy by the district boards. Besides providing facilities for treatment in the existing hospitals and dispensaries, some district boards employed temporary doctors to cope with the situation. Certain district boards made arrangements for the treatment of kala-azar in the existing district board dispensaries besides maintaining special treatment centres. In the sphere of anti-malarial work, the services of the anti-malarial societies and union boards were largely utilised and the campaign of quinzation was pushed through with vigour, some of the district boards purchasing considerable quantities of quinine to augment the supply received from Government for distribution.

The existing institutions for the specialised treatment of leprosy were maintained, while some district boards opened new clinics or made arrangements for the treatment of lepers in some of the district board dispensaries.

The evil of food adulteration is reported to have received more attention from the district boards than in the preceding years. The establishment of Public Health Laboratories in many districts offered greater facilities for the analysis of food-stuffs, with the result that there was an appreciable increase in the number of samples examined as well as in the number of prosecutions. Training of indigenous *dais* was undertaken by almost all the district boards and a larger number of *dais* were trained and equipped for service in the rural areas.

7. Veterinary charges.—During the year under review, the income under this head decreased from Rs. 3,619 to Rs. 2,790 but the expenditure increased from Rs. 1,89,872 to Rs. 1,98,317.

Considerable interest was taken by a number of district boards, especially in the Burdwan and the Rajshahi Divisions, in maintaining stud-bulls with a view to improving the breed of cattle in their respective areas. Most of the district boards employed veterinary assistant surgeons or veterinary assistants to attend to cattle diseases; while some district boards maintained veterinary hospitals or dispensaries. During the year under review, the Bogra district board started a new veterinary dispensary at Molamgari. As in previous years, the veterinary work in Darjeeling was carried on in close co-operation with the Darjeeling Himalayan Society for the prevention of cruelty to animals with satisfactory results.

There were 124 outbreaks of cattle diseases in Burdwan, 47 in Pabna and 61 in Malda. In the Madaripur subdivision of the Faridpur district, the cattle disease raged in an epidemic form for a month, necessitating the employment of an extra veterinary assistant surgeon. The veterinary staff of the district board attended to the cases and prevented the spread of the epidemic by means of inoculation and treatment.

8. Civil Works.—The total income under this head, which also includes "Water-supply" and "Drainage" besides "Communications", fell from Rs. 26.14 lakhs to Rs. 24.40 lakhs during the year under review. The expenditure also showed a decrease from Rs. 74.28 lakhs to Rs. 68.70 lakhs, the major portion of the decrease being in the expenditure on communications which fell from Rs. 46.14 lakhs to Rs. 41.88 lakhs. Of the total outlay on communications, a sum of Rs. 13.63 lakhs was spent on "Repairs" and Rs. 28.25 lakhs on "Original works".

The reduction in the expenditure on communications did not seriously affect the total mileage of roads maintained by the boards. The mileages of metalled and village roads actually increased from 2,979 to 3,037 and from 26,148 to 30,347, respectively, the mileage of unmetalled roads only suffering a slight decrease from 19,929 to 19,774. The increase in the mileage of the roads was

due to some extent to the conditions arising out of the floods and the consequent relief operations in the districts affected by the floods.

In the Burdwan Division, the expenditure on "Civil Works" amounted to Rs. 16.03 lakhs against Rs. 16.05 lakhs in the preceding year, representing 41.8 per cent. of the total expenditure as compared with 40.9 per cent. in the previous year. The decrease was shared by all the districts except Burdwan and Bankura.

The expenditure on "Civil works" incurred by the district boards in the Presidency Division amounted to Rs. 17.24 lakhs, showing a decrease of Rs. 2.91 lakhs for which the district boards of Murshidabad, Jessore and Khulna were mainly responsible. The decrease was most marked in Jessore, viz., Rs. 2,48,679, but this was due, mainly, to the transfer to Government of the work of improvement of the Jhenidah-Magura road, which had been undertaken out of the subventions from the Road Development Fund.

In the Dacca Division, the expenditure on "Civil Works" showed a decrease of Rs. 8,489 which was shared mainly by the district boards of Dacca and Bakarganj. The district board of Mymensingh, however, increased its expenditure under this head by Rs. 39,411. All the district boards, except Dacca, spent more on "Repairs"; but the Dacca district board incurred an expenditure of Rs. 26,314 out of its share of the motor vehicles tax grant for the general improvement of roads and bridges with a view to making them motorable.

The total outlay on "Civil works" increased from Rs. 6.22 lakhs to Rs. 6.36 lakhs in the Chittagong Division. All the three boards took great interest in the improvement of communications, particularly in the construction of bridges. It is reported that communications in the district of Chittagong are gradually improving and that the board is constructing bridges and roads which will help to establish through communications and will facilitate motor transport, particularly in the southern part of the district.

In the Rajshahi Division, the expenditure under the head decreased by

Rs. 2.62 lakhs, owing to reduced expenditure by the district boards of Rajshahi, Dinajpur, Rangpur, Bogra and Pabna. There was, however, an increase in expenditure in the remaining three districts. The boards spent more on original works of communications than on repairs. The decrease was most marked in Rangpur (Rs. 1,14,302), Rajshahi (Rs. 80,146) and Pabna (Rs. 79,223) and was mainly due to the fall in the income from cess in consequence of the floods. The decrease in Bogra was to some extent due to the employment of the engineering staff of the board in test relief works which entailed partial suspension of the other activities of the Engineering Department. There was a marked increase of Rs. 88,898 in the expenditure in Jalpaiguri owing to the special grants of two consecutive years from the motor vehicles tax fund having been received during the year under review.

The proportion of expenditure on civil works to the total expenditure chargeable to current income decreased from 42.4 per cent. to 39.8 per cent. during the year under review.

9. Water-supply.—The total outlay on water-supply during the year under review was Rs. 8.64 lakhs as against Rs. 9.07 lakhs in the previous year. Out of the total expenditure, a sum of Rs. 7.35 lakhs was spent on original works and Rs. 1.29 lakhs on repairs.

The district boards in the Burdwan Division incurred an expenditure of Rs. 1.78 lakhs against Rs. 2.36 lakhs in the preceding year. Of this total amount, a sum of Rs. 1.32 lakhs was spent on original works and Rs. 45,081 on repairs. The expenditure on original works decreased in all the districts of the Division. The Burdwan district board excavated 6 masonry wells, deepened 8 wells and sank 4 ring wells and 68 tube-wells. The Birbhum district sank 120 tube-wells, 14 masonry and 25 cement ring wells. In Midnapore, 190 tube-wells, 22 masonry wells and 1 pottery well were sunk. At the end of the year, there were in all 1,514 tube-wells, 605 masonry wells, 49 pottery wells and 405 tanks under the management of the local boards of the district. In Hooghly, there were 5,479 tube-wells, 200 ring wells, 122 masonry wells and 175 reserved tanks. In this district, the problem of supply of drinking water is reported to have been solved

to an appreciable extent. In Howrah, 2 tube-wells were sunk and 80 choked up tube-wells were resunk, while a tank was re-excavated and pumping arrangement was made in a reserved tank of the board.

In the Presidency Division, the expenditure on water-supply fell from Rs. 2.48 lakhs in 1937-38 to Rs. 1.60 lakhs during the year under review, the district boards of Murshidabad, Jessore, and Khulna being mainly responsible for the decrease.

The district boards of the 24-Parganas and Nadia, on the other hand, increased their expenditure on water-supply, the former sinking 47 new tube-wells and resinking 85 old ones and the latter sinking no less than 351 new tube-wells.

The district boards in the Dacca Division, incurred an expenditure of Rs. 3.78 lakhs on water-supply against Rs. 2.45 lakhs in the preceding year. Of this total outlay, a sum of Rs. 3.48 lakhs was on account of original works and Rs. 29,928 for repairs. The district board of Dacca completed the work of sinking 318 wells during the year, besides maintaining the Munshiganj waterworks at a cost of Rs. 2,399. The district board of Mymensingh constructed 25 tube-wells, 56 masonry wells, 101 ferro concrete wells and 1 tank besides providing 259 tube-wells with platforms. In Bakarganj, 3 tanks were excavated during the year under review and the excavation of several others was taken up under the board's new scheme for excavation of tanks. A sum of Rs. 2,500 was paid by the district board as its contribution of half the expenditure towards the excavation of tanks in the Khas Mahal areas.

In the Chittagong Division, the expenditure on "Water-supply—Original works" and on "Repairs" amounted to Rs. 38,959 and Rs. 4,348 against Rs. 40,623 and Rs. 6,559, respectively, in the preceding year. The Chittagong district board sank 7 tube-wells and 67 ring wells. The Tippera district board sank 197 tube-wells, resank 15 old tube-wells and constructed 162 masonry platforms for tube-wells. In Noakhali 392 tube-wells were sunk during the year.

The total expenditure under this head in the Rajshahi Division decreased from Rs. 1.36 lakhs in 1937-38 to Rs. 1.06 lakhs during the year under review, all the district boards, except that of

Malda, being responsible for the decrease. In Jalpaiguri, no necessity was felt for expenditure on a large scale on water-supply projects, drinking water being available in that district at a small cost by sinking kutchha wells. The Rangpur district board sank 18 tube-wells, 56 cement concrete ring wells and 17 masonry wells. In Bogra 222 new tube-wells were sunk and the district board is reported to have taken up the question of maintaining the tube-wells, numbering 2,609, with the help of an additional staff under the direct supervision of the board. In Pabna, 35 masonry wells and 13 tube-wells were sunk by the district board and the local boards completed the construction of 104 ring wells. The programme of sinking 150 masonry wells by a loan from Government was partially taken up by the Malda district board and a total expenditure of Rs. 15,679 was incurred.

10. Famine Relief.—During the year under review, several districts in the province were visited by devastating floods. The district boards of all these districts took steps to provide necessary relief to the people of the affected areas besides opening test relief works on an extensive scale in co-operation with Government.

In the Presidency Division, the district board of Murshidabad, which was most affected, sanctioned large amounts of money for gratuitous and medical relief. Out of Rs. 2.60 lakhs advanced by Government, the district board spent Rs. 1,53,879 during the year. The Khulna district board spent Rs. 15,780 for gratuitous relief. The Jessore district board sanctioned a sum of Rs. 18,000 for charitable relief and Rs. 67,000 for test relief works, but very little could be actually spent for want of co-ordination and proper guidance. A sum of Rs. 11,904 was advanced for distribution of doles and paddy husking schemes, but full accounts could not be obtained and adjusted during the year. The district boards of the 24-Parganas and Nadia undertook works in affected areas in order to give relief to the distressed people.

In the Dacca Division, all the four district boards opened test relief works in affected areas and helped the cultivators and labourers to tide over their difficulties. The Mymensingh district board spent Rs. 70,000 and Bakarganj

Rs. 15,921, on this account out of their own funds.

There was extensive damage to crops by floods in all the districts during the year in the Rajshahi Division except Darjeeling and Jalpaiguri. Although the burden of relieving the distress and suffering of the people in distressed areas was borne mainly by Government, the district boards were not slow in co-operating with Government and in starting test relief works where necessary. The district board of Rangpur mobilized all its available sanitary, medical and public works staff to co-operate with Government in taking the necessary relief and preventive sanitary measures in order to arrest the spread of the epidemics which broke out in the wake of the floods. The board spent Rs. 10,271 from its own funds and started test relief works with the money advanced by Government. In Bogra, a total expenditure of Rs. 22,101 was incurred for the purpose, besides Rs. 2,078 on gratuitous relief. The Pabna district board started relief works besides advancing Rs. 15,000 to the Collector for gratuitous relief to the people and Rs. 1,000 for the purchase of fodder for the distressed cattle. In Dinajpur the test relief works had to be started in all the subdivisions. The Rajshahi district board contributed Rs. 5,000 for distribution by the Collector for immediate relief. Subsequently, relief on a very large scale had to be given by Government in the shape of gratuitous relief and agricultural loans. In Malda, a district relief association was formed with the District Magistrate as its President. The district board contributed Rs. 2,000 to it for gratuitous relief. Government sanctioned a considerable sum for distribution in the form of doles and agricultural loans. The test relief works in the form of cutting or clearing of jungles were started at the first stage, and, as soon as the floods subsided, earthwork on roads was started. Centres were opened in the affected areas to help the distressed people and the maximum daily attendance is reported to have been 5,550.

11. **General remarks.**—The year under review was a difficult one for the majority of the district boards owing to the devastating floods which not only adversely affected their income but, at the same time, involved them in additional expenditure for the relief of the

distressed people in the affected areas. It is, however, satisfactory to note that, almost all the district boards concerned took adequate steps, with such resources as they had at their command, to supplement the money provided by Government, for relief operations and mobilised their technical staff to organise and supervise the relief works in co-operation with the District Officials. These relief operations not only led to a much needed amelioration of the condition of the people in distress but also resulted in a considerable permanent improvement of the roads in the affected areas. The district boards also displayed commendable zeal in undertaking works of public utility. Water-supply, medical relief, public health operations, education and communications received adequate attention from most of the boards during the year under review. Harmonious relation also subsisted between the district authorities and the district boards throughout the province.

It is, however, regrettable to note that the same type of minor defects and irregularities, as were noticed in previous years, continued to be revealed in the audit reports. The irregularities and defects that recur year after year appear to be due in the main to a lack of adequate supervision and of an intelligent interest in, and appreciation of, the law and the account rules. Government trust that greater attention will be paid by the Chairmen and Vice-Chairmen of the district boards to a closer supervision over accounts and a stricter compliance with the rules.

The services rendered by the following gentlemen have been specially mentioned by the local officers and Government take this opportunity of thanking them and all others who have assisted the administration of local self-government during the year under review:—

Burdwan.

1. Raja Moniloll Sing Roy Bahadur, C.I.E., Chairman, District Board.
2. Rai Harakali Pan Bahadur, M.A., B.L., 1st Vice-Chairman, District Board.
3. Bahu Radhagobinda Hati, 2nd Vice-Chairman, District Board.
4. Lt. Saileswar Sing Roy, Member, District Board.
